

## QUARTER 4 OVERVIEW

Quarter 4 will be spent mostly working on a long-term poetry unit. We will be studying various poetry types, and writing our own anthologies. Students will continue to develop their understanding of parts of speech in grammar, as well as how to apply parts of speech to their writing. Students will continue working on weekly writing prompts and spelling/roots assignments. We will focus on really applying active reading skills to each and every one of our assignments. The goal is to show students that active reading is a skill which they can use in all curriculum areas, not just for Language Arts homework assignments.
